**Extra Credit:** (1) Creative Project. (2) Extra credit opportunities will be available in-class. The more you attend class, the more likely you will be there for an extra credit opportunity.

**Makeup Policy:** Makeup exams and quizzes are all-essay format and are substantially more difficult than scheduled exams. It is to your benefit to attend all scheduled quizzes and exams.

**Religious/Cultural Holidays:** I respect and accommodate all religious/cultural holidays. If a test or quiz conflicts with a holiday, you will not be asked to take the makeup version. However, you must give advanced notice so that accommodations can be made.

**Curve:** Grades will be scaled when appropriate. Otherwise, grades will be based on the standard 90/80/70/60 scale.

December 1: EXAM 3

EXTRA CREDIT: Creative Project

The purpose of this project is to give students an opportunity to demonstrate substantial knowledge of a course topic through creative means. Students may be awarded up to 10 points extra credit. Students will be judged on the degree to which they demonstrate knowledge of a topic (up to 5 points) and their creativity in demonstrating this knowledge (up to 5 points). Group projects (up to 5 students) are allowed only for those doing performance-based activities; these should not exceed 5 minutes. Individual projects can be submitted in-class and do not have to be performed.

NOTE: All creative projects are due by class time. No exceptions.
Cross-Sectional Quasi-Experiment: Due November 3

Step 1: Locate 5 individuals ~18-20 years old and 5 individuals ~28-30 years old. Match the groups across demographics as best you can (e.g., similar ratio of women/men in both groups).

(NOTE: These cannot be students in this class, close friends, or family members.)

--

Step 2: Add 5 questions about memories to the questionnaire that you think will highlight different stages of development between your two groups. Questions have to be about memories and the goal is to identify memories that are likely to differentiate these two groups.

--

Step 3: Obtain consent from each participant. Participants will be asked to respond to a short questionnaire about their memories for a course assignment. They should review the questions before they consent to participate. Make sure they understand that recalling these memories may be extremely emotional and potentially distressing and that they should participate only if they feel they will not be affected in any negative way.

(NOTE: consent form provided on blackboard.)

--

Step 4: Administer the questionnaire to your 10 participants.

(NOTE: You choose how to administer the questionnaires - individually, as a group, face-to-face, or over email. However, this is not an interview. Make sure participants record their own responses and then hand or send them back to you.)

--

QUESTIONNAIRE:

1. Briefly describe the memory that provides you with the most amount of happiness at this point in your life.

2. Briefly describe a memory that reflects a major turning point in your life.

3. Briefly describe a memory that reflects a major obstacle you overcame.

4-8. Five questions about memories of your choosing......
Write-up: Instructions

FORMAT:

**Write-up:** 4 Pages, Double Spaced, 12 pt font, 1 inch margins.  
**Questions + Answers:** No Length Requirement, Double Spaced, 12 pt font, 1 inch margins.

SUBMISSION:

(1). A **printed hardcopy** of your project should be submitted in-class. This includes: (a) the **4-page paper,** (b) the interview **questions + answers** and (c) the **signed** consent forms.

(2). A copy of the **paper only** should also be submitted through **Safe Assign on Blackboard.**

TOPIC:

Include a **brief description of your two groups.** (1/4 page)

Identify and discuss **3 concepts** from the course (readings or lectures) that emerged in the responses of the 18-20 year olds. (1.5 pages – **half page per concept**)

Identify and discuss **3 different concepts** that emerged in the responses of the 28-30 year olds. (1.5 pages – **half page per concept**)

Compare and contrast the overall findings of your two groups. Discuss how a cohort effect may have contributed to these findings. (3/4 page)

GRADING:

This paper is 20% of your final grade, thus it should be of professional college-level quality.

10 points: Overall quality of writing.
10 points: Quality of questionnaire.
10 points: Analysis of 3 concepts about adolescence and/or young adulthood.
10 points: Analysis of 3 concepts about emerging adulthood or adulthood.
10 points: Comparison of two groups and discussion of potential cohort effect.

-1 pt: Hardcopy not stapled.
-3 pts: Each significant spelling/grammatical error.
-5 pts: Failing to submit both hardcopy and copy through Safe Assign.
-5 pts: Submitting paper over 4 pages or more than a line fewer than 4 pages.
